Dear Mike,

I really enjoyed attending your Surety and Construction Workshop on September 30, 2004. The information and materials you provided are very helpful. I put what I learned to use the next day with a new project I just started.

This is truly a must have CYA course in the sub-contracting world.

I have been asked to give a review of what I learned at your course to our Project Managers district wide next Tuesday.

As we discussed, my supervisor would like to customize a course that pertains specifically to our Performance Solutions business. We will definitely be in touch.

Thanks again,

Patrick Corrigan
PS Project Manager
