

Loewke Brill's response to COVID-19

Our hearts go out to those who have been personally affected by the outbreak as well as our many communities around the world that are facing extreme measures in the attempt to slow its spread.

In today's challenging environment, we want to provide our clients more information as to how we are securing our business and, in turn, yours. Loewke Brill is dedicated to supporting our clients and our community throughout this global Coronavirus (COVID-19) pandemic.

Actions we are taking:

Onsite projects:

- Even though non-essential travel is limited, we want to assure our clients that we will maintain regular contact and continue to be the trusted company you've always known us to be.
- We will continue to monitor the situation daily to ensure that our business is fully prepared to react to any confirmed cases involving our clients.
- We want to assure our clients that we will continue working with the GC on each project, while also following the health guidelines from each state and local municipality to ensure everyone's safety on the jobsite.
- The CDC's recommendations to minimize the risk of infection, as well as each state's health guidelines, are on display at each job site and at our home office.

Maintaining Daily Operations

- All of our staff are currently working from home (as our home states mandate), so that we can do our part to slow the spread of COVID19 and keep our employees and clients as safe as possible.
- We are able to utilize our in-home offices by using our secure, cloud based software so that operations within our organization can continue without interruption.
- Our staff will continue to be available for any questions or concerns from our clients during this challenging period.

Overall, we at Loewke Brill would like to express our sincere gratitude for our loyal clients and staff. Our thoughts and prayers will remain with everyone around the world as we are all dealing with the effects of this pandemic. Thank you for continuing to trust Loewke Brill and please be well during this difficult time.
